

FOREVER FRIENDS

.....◆———— LEGACY SOCIETY ———◆.....

The Forever Friends Legacy Society was established in 2014 to recognize those closest friends of the organization who have chosen to name True Friends as a beneficiary of their estate plans. These beneficiary designations come in the form of wills, trusts, life insurance policies, retirement accounts or other trust arrangements where beneficiaries are named.

The goal of this group of donors, through its long-term financial commitment to True Friends, is to provide a substantial base of endowed funds from which earned investment income can provide a significant portion of the annual operating revenue for the organization. These endowed funds will be invested and managed by the True Friends Foundation.

As the organization embarks on new ventures to improve the quality of life for people with disabilities, the True Friends base of financial support must be broadened by finding more “heroes” with the heart and resources to help participants and their families. These heroes are members of our Forever Friends Legacy Society.
