

HEALTH CARE INFORMATION AT TRUE FRIENDS

True Friends serves a variety of individuals with a variety of diagnosis, disabilities, or conditions. By providing detailed and up-to-date information about each individual through our application process, including documents and questionnaires, we are able to provide a safe and successful experience for the individual, staff, and caregivers. Staff regularly reference the information shared with us to make decisions about the care needed, supervision support, and to enhance the experience of each individual.

In 2020, True Friends is taking another step forward to enhance our programs and services by requiring all participants to provide necessary documents at the time of registration. Applications will not be reviewed or confirmed without all the necessary documentation.
